

**JR Recycling
Solutions LTD.**
Safe, Sustainable, and Experienced E-Waste Management

BUSINESS COMPANY PROFILE

2024

Empowering a Greener Future: E-Waste Recycling by JR

JR Recycling Solutions is a prominent company in the field of e-waste management and eco-recycling technology. We possess a deep understanding of the technology that goes behind it. Our core mission revolves around creating a sustainable future through responsible accelerating and optimising IT products.

It's great that JR Recycling Solutions LTD is concerned about environmental and personal safety precautions. Having certifications like **R₂: 2013 & ISO 9001:2015, 14001:2015, 27001:2015, 45001:2018** demonstrates their commitment to responsible e-waste management. E-waste is a growing problem around the world.

ABOUT US

Journey started in 2011.

40+ Permanent Employees, 55+ Contractual Employees

Annual Turnover BDT 50 crore (\$ 4.6 m USD), Financial Year 2022-2023.

ISO : 9001:2015, 14001:2015, 27001:2013, 45001: 2018, & R2:2013 certified.

12+

years of glorious journey
with best effort.

ABOUT COMPANY

JR Recycling Solutions Ltd. is one of the largest E-waste Recycling company in Bangladesh. Started its journey in 2011. We highly concern about all the environmental and personal safety precautions. For safety measures and precaution, we have achieved the Local Certifications & No Objection Certifications R2:2013 and ISO certified.

OUR MISSION

Our motto is 3 R's, Reduce, Reuse and Recycle, through continuous implementations and innovations in recycling technology for recovery in an environmentally friendly manner to protect the environment.

OUR VISION

To create the most compelling recycling company of the 21st century by driving the world's transition to PCB recycling And, establish the tier 4 E-Waste Recycling plant in Bangladesh.

OUR VALUES

Environmental Responsibility: Prioritizing responsible and sustainable e-waste management practices.

Safety and Compliance: Upholding the highest safety standards for employees and the environment.

Customer Focus: Delivering reliable and efficient e-waste management solutions for clients.

Integrity and Ethics: Conducting business with honesty and transparency in all interactions.

Innovation and Efficiency: Continuously seeking new technologies and methods to optimize e-waste recycling.

OUR WORKS

At present we can only able to do Recycling (dismantle, segregation and separation) of All Kind of E-Waste scrap. Such as

- Home appliances (e.g., refrigerators, washing machines, air conditioners).
- Information Technology and Telecommunication Equipment (e.g., personal computers, laptop computers, printers, copying equipment, calculators, facsimiles, telephones, mobile phones, wireless equipment's, antenna, different types of cable).
- Consumer Electronic Devices (e.g., televisions, radios, video cameras, audio equipment)
- Other Medium- and Small-Sized Electrical and Electronic Equipment (e.g., air and water purifiers, vacuum cleaners, toasters, coffee machines, hair dryers, watches, or irons).

RISK AND HAZARDOUS

Work at Height

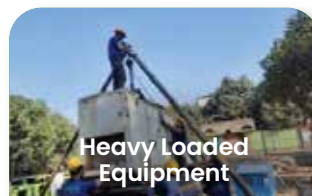

Activity/Subtask:
Dismantle Out Door AC, Boilers, Chimney, Coolers pipe from height.

Hazard
Can be slipped and fall down

Risk
Fall from Height

Relevance (Who/what will be harmed)
Worker

Engineering Controls:
Safety Belt, Chain Pulley, Skaw Folder or Jog pipe for secure the product and worker.

Heavy Loaded Equipment

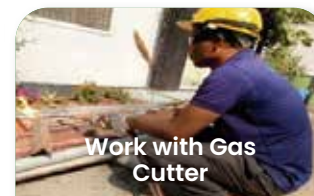

Activity/Subtask:
Generators, Boilers, Chimney, Coolers, Rail wagon delivery.

Hazard
Can be slipped and displaced

Risk
Accident

Relevance (Who/what will be harmed)
Worker

Engineering Controls
Use Chain Pulley, Fork Lift, Props (For support the floor).

Work with Gas Cutter

Activity/Subtask:
Generators, Boilers, Chimney, Coolers, Rail wagon, Ship Breaking etc.

Hazard
Fire

Risk
Burn everything

Relevance (Who/what will be harmed)
Worker

Engineering Controls
Fire Extinguisher in place, Water/Sand, Fire Blanket.

Welding

Activity/Subtask:
Generators, Boilers, Chimney, Coolers, Rail wagon, Ship Breaking etc.

Hazard
Fire

Risk
Burn everything

Relevance (Who/what will be harmed)
People/Assets

Engineering Controls:
Fire Extinguisher in place, Water/Sand, Fire Blanket.

Work with Grinding Cutter

Activity/Subtask:
Generators, Boilers, Chimney, Coolers, Rail wagon, Ship Breaking etc.

Hazard
Fire

Risk
Burn everything

Relevance (Who/what will be harmed)
People/Assets

Engineering Controls:
Fire Extinguisher in place, Water/Sand, Fire Blanket.

RISK AND HAZARDOUS

Activity/Subtask: Work with Hammer, Compressor Machine
Hazard Miss shot, Electric shock
Risk Injury
Relevance (Who/what will be harmed) Worker
Engineering Controls Right quality equipment's, Compressor machine

Activity/Subtask: Caring Equipment over 100 kg
Hazard Can be slept and displaced
Risk Injury
Relevance (Who/what will be harmed) Worker
Engineering Controls Use Fork Lift/ Chain Pulley/Crain will in place to handle.

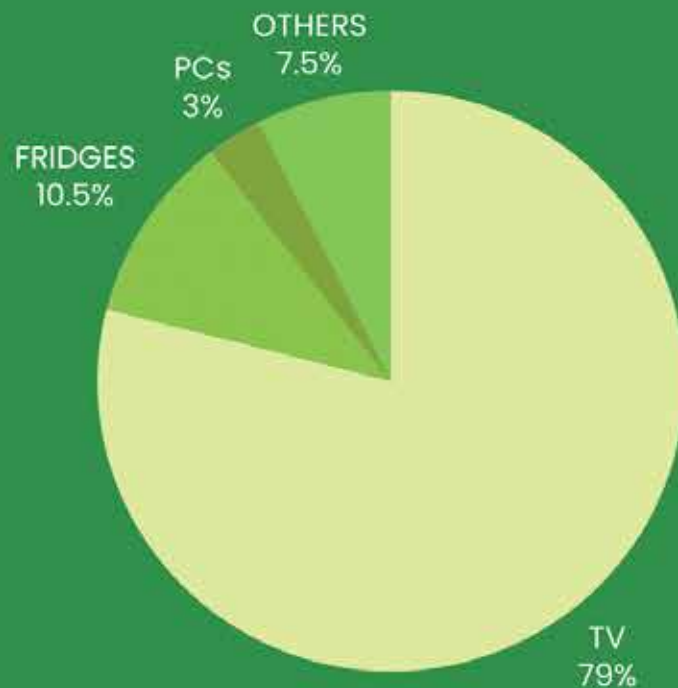

Activity/Subtask: Caring Equipment bellow 100kg
Hazard Can be slept and displaced
Risk Injury
Relevance (Who/what will be harmed) Worker
Engineering Controls Use Team having minimum 4 workers.

Activity/Subtask: Electric Works
Hazard Electrification, Short Circuit, Fire
Risk Electric Burn, Electric Shock.
Relevance (Who/what will be harmed) Worker/Asset
Engineering Controls Use Electric tester, must ensure one helper.

Activity/Subtask: Road Travel
Hazard Road Travel
Risk Accident
Relevance (Who/what will be harmed) People, Asset
Engineering Controls Use well fit vehicle, Skilled Driver with driving License.

THE BANGLADESH LANDSCAPE

The Mott MacDonald study in 2018, estimates that the current total amount of e-waste produced is 0.35 Million tonnes per annum and increases to 1.25 Million tonnes per annum in 2030.

In 2018 the quantity produced per inhabitant is estimated to be 2.1kg per annum which increases to 6.6kg in 2030. The e-waste estimate indicates that TVs are the primary type of e-waste produced on an annual basis at 79%, with the next largest being fridges and PCs at 10.51% and 3.01% (MottMacDonald 2018).

E-WASTE IMPACT

E-WASTE IMPACT ON HUMAN BODY

E-WASTE
Contains

- Metals (60%)
- Plastics (15%)
- Metal-Plastic mixture (5%)
- & Others

LEAD

- Hamper Brain Development
- Kidney Damage
- Blood System Damage

BERYLLIUM

- Lung Cancer
- Skin Diseases

PLASTICS CONTAIN PVC

- Damage Immune System
- Reproductivity & Development

MERCURY

- Chronic Damage to Brain & Respiratory

CADMIUM

- Teratogens
- Physical/Functional Defects
- Neural Damage

BARIUM

- Damage Heart Liver & Spleen
- Muscle Weakness

CHROMIUM

- Asthma
- Bronchitis

IMPACT ON ENVIRONMENT BY IMPROPER ELECTRICAL COMPONENT.

Heavy metals from E-Waste, Such as mercury, lithium, lead and barium, then leak through the earth even further to reach groundwater. Clean drinking water becomes problematic to find. Acidification and toxification are created in the water.

Contamination in the air occurs when electrical component is informally disposed by dismantling, shredding or melting the materials, releasing dust particles or toxins, such as dioxins, into the environment the cause air pollution and damage respiratory health.

When the soil is contaminated by electrical component, the crops become vulnerable to absorbing these toxins, which can cause many illnesses and doesn't allow the farmland to be as productive as possible.

IMPACTS TO ENVIRONMENT

Rapid mining for copper will cause waste of natural resources and the depletion of earth surface. Irresponsible manufacturing factory of copper and plastic will release toxic to the river. The manufacturing process of copper will cause air pollution. The copper and plastic wastes is non biodegradable and will stay on earth for a very long period.

METAL COMPOSITION IN E-WASTE

CATEGORY	COMPOUNDS
Precious metal	Gold (Au), Silver (Ag), Palladium (Pd), and to a lesser extent Platinum (Pt)
Base metals	Copper (Cu), Aluminum (Al), Nickel (Ni), Tin (Sn), Zinc (Zn), Iron (Fe)
Metals of concern	Mercury (Hg), Beryllium (Be), Indium (In), Lead (Pb), Cadmium (Cd), Arsenic (As), Antimony (Sb)
Halogens	Bromine (Br), Fluorine (F), Chlorine (Cl)
Combustibles	Plastic and organic fluids

R2:2013 CERTIFICATE

This is to Certify that the Responsible Recycling System of

J R Recycling Solutions Limited

Head Office: House 69, Mastarpararoad, Barabag, Dhaka1216, Bangladesh

Warehouse: Holding No. 42/2, Mondolpara, West Rajashon, Savar, Dhaka, Bangladesh

has been independently assessed and registered by B-ADVANCY
as conforming to the requirements of

R2:2013 (Responsible Recycling Management)

For the Scope of activities described below:

"RECYCLING ELECTRONICS EQUIPMENT, IT ASSET MANAGEMENT INVOLVING THE SECURE DATA
ERADICATION, REFURBISHMENT AND REUSE OF ELECTRONIC EQUIPMENT, INCLUDING THOSE
SERVICES PROVIDED ON-SITE AT CLIENT'S FACILITIES"

Certificate No. : 2404122BD

Date of Initial Registration : 30th Apr 2024

Certificate Expiry : 29th Apr 2025

Recertification Due : 29th Mar 2025

Validity of the certificate is subject to completion of surveillance audit on or before the due date. In case the surveillance audit is not
allowed to be conducted, this certificate shall be suspended/subject to withdrawal.

DATA DESTRUCTIONS/ DATA ELIMINATION :

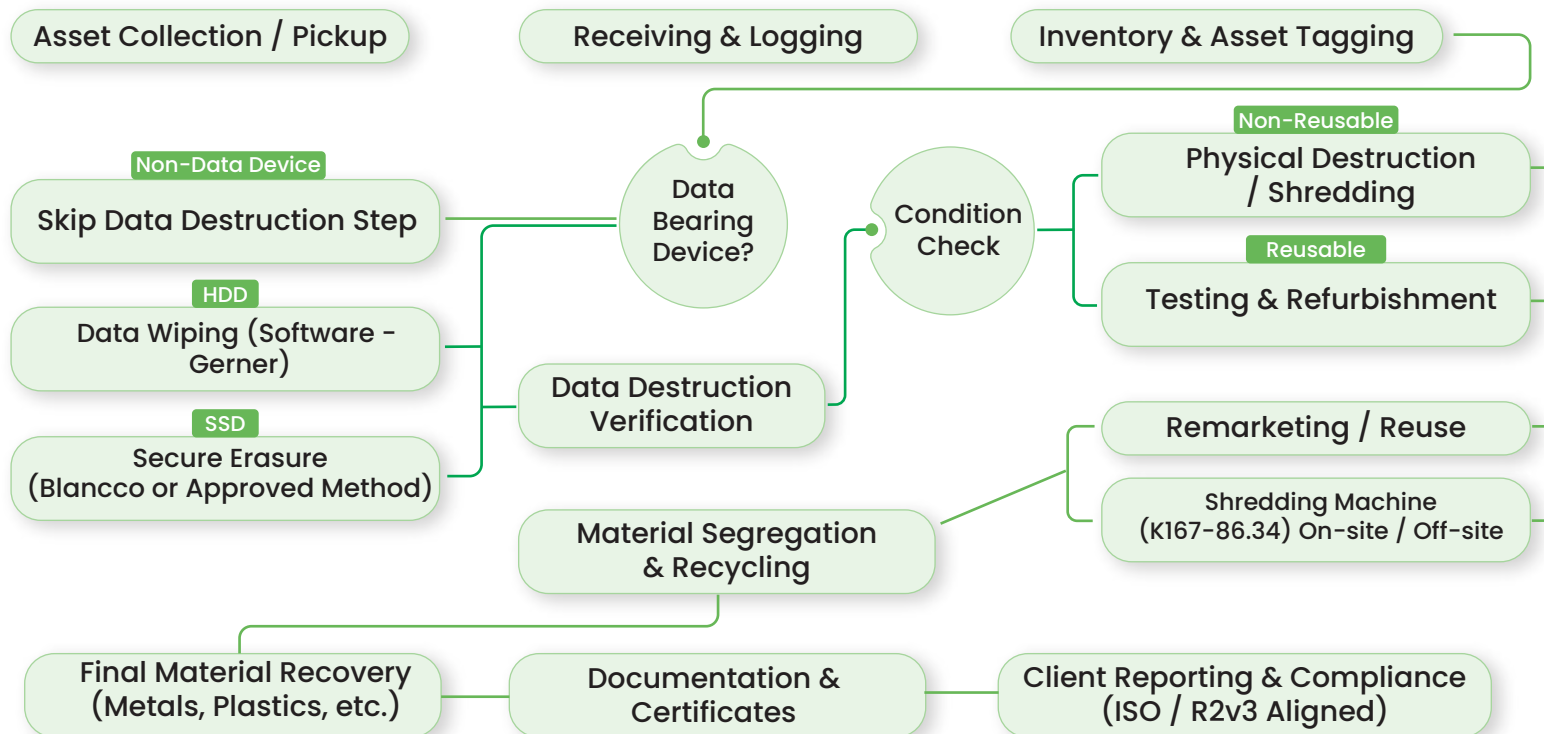

Businesses often store personal information digitally and in hard copies. Failure to properly destroy this data on various devices can lead to identity theft. Degaussing, which involves using powerful magnetic pulses, is a quick and effective method to permanently erase data from hard drives, tapes, and floppy disks. We specialize in secure data destruction solutions for hard drives, data tapes, and pen drives.

We use world leader in Data Elimination & NAS approved Garner Degausser HD-2. Garner HD-2 Degausser(Hard Driver & Tape).

OUR PROCESS

WAREHOUSE PROCESS

At JR Recycling Solutions Ltd., all collected e-waste materials are safely received and stored in our warehouse. Each item is carefully sorted, inspected, and prepared for the next recycling stage. Our warehouse ensures organized storage, secure handling, and smooth material movement for an efficient recycling process.

PROPOSED RECYCLING PLANT BY BHTC

BHTC (Bangabandhu Hi-Tech City is the first ever Hi-Tech Park in Bangladesh, located at Kaliakoir Upazilla in Gazipur district.

The total Land Area of BHTC is 355 acres where 232 acres of land was divided into 5 blocks as per master plan.

BHTPA Authority allocated 2.5 acres (Approx.10117.1 sq. meters) Land (plot No: 11) to build a data center, Training Center and IOT, PCB Manufacture, E-Waste Treatment Plant, as a result.
